

eLearning Course: Effective Teaching Skills for Doctors

CPD Points – 7

Cost – £199.00

Course Duration – 7-10 hours

Introduction and Overall Aim

This innovative eLearning course is designed to introduce doctors of all grades to the principles of effective teaching skills. Fully interactive, with a spoken soundtrack throughout, our unique eLearning course enables you to study anywhere, at your own pace and in a way that fits in with the busiest of lives.

The course content covers:

- The roles and responsibilities of a good teacher
- Developing key skills
- How good teachers operate
- Platform skills
- Effective medical teaching
- Medical teaching in context
- Setting objectives
- Giving feedback
- An end of course test

Learning Objectives:

By completing this eLearning course, learners can expect to develop skills to:

- Understand the roles and responsibilities of a teacher
- Name the stages of skill development through which, as teachers, they must lead students
- Explain the four major learning styles that students exhibit, and how to adapt their teaching to suit each type
- List the eight behaviours of a good teacher and the thirteen characteristics of good communication in teaching
- Adopt 'platform skills' that will improve their performance before an audience
- Explain the special role and responsibilities of teaching in medicine
- Recognise and explain the importance of teaching a blend of Knowledge, Skills and Attitudes
- List the key points to consider when teaching medical professionals in different contexts: lectures, seminars, ward rounds and clinical settings
- Explain how to teach a manual skill
- Explain how to teach communication skills to medical staff
- Set clear, behavioural learning objectives for a teaching session
- Give clear, appropriate feedback to students and others

Key Benefits of this Course

- Learners are able to complete the course at their own pace
- An electronic learning journal is provided so individuals may pause for thought and make notes
- 'Breakout' activities such as self-assessment tests are included as part of the course
- A soundtrack is available through out should learners prefer to listen to the course
- Interactive tests are provided at the end of each section to test the learner's own knowledge
- There is an opportunity to evaluate the course and feedback any critique at the end
- A variety of animations and effects are used to keep the course visually stimulating
- The course culminates in a final interactive test which users must pass to obtain their certificate.
