About the authors

Matt Green, BSc, MPhil

After establishing a private tuition service in 2004, Matt went on to found Apply2Medicine in 2005, and for the last five years has been supporting prospective medical and dental students secure their first choice University place.

Tom Nolan, BSc, MBBS

Tom Nolan graduated from the Royal Free & University College Medical School in 2006. He worked as a junior doctor in the London area, where he completed his foundation training. He currently works at the British Medical Journal as a Clinical Editor. He has been a facilitator on the Apply2Medicine

Book Description

Deciding on whether or not to pursue a career in medicine is a decision that should not be taken lightly. Becoming a doctor can be highly rewarding but is not without its drawbacks. It is therefore important that you gain a clear insight into the world of medicine to ensure that it is the right path for you to follow.

This book has been written with the above in mind to provide a clear picture of what becoming a doctor really involves. In this comprehensive book Matt Green and Tom Nolan explore:

- What it really means to be a good doctor
- The steps that should be taken to confirm whether a career in medicine is really the one for you
- How to successfully apply to medical school including the various entrance exams (UKCAT, BMAT, GAMSAT), the UCAS personal statement and subsequent medical school interview
- Life as a student at medical school and how to excel
- The various career paths open to you as a doctor with invaluable insights provided by practising doctors.

This engaging, easy to use and comprehensive book is essential reading for anyone serious about becoming a doctor and determining whether it really is the right career for you!
